120W ZigBee wireless LED dimming control module
220-240V

(For resistive loads - max 250W capacity)

Available to purchase separately

compatible with aurora[®] + enlite[®] dimmable products*

*Full compatibility is not guaranteed with other manufacturers products

Smart Controls

Lighting Controls

The Hamilton Smart Control dimming pack gives simple and effective control of lighting and building systems. It also benefits from being one of the easiest systems to install and operate, allowing you to transform a space to suit any mood and is essential for creating the right atmosphere in all kinds of environments: residential, hotels, restaurants, bars/clubs, health spas, museums, entertainment spaces such as home cinemas and so much more, both inside and out.

- Simple and effective control of ambient lighting.
- Close and open window blinds at the touch of a button.
- Easy to install, easier to operate. Set, store and recall lighting scenes, at a touch.
- Daylight/motion sensors maximise energy efficiency.
- Compatible with most leading brand LED lamps.
- Option for RGB DMX or 1 to 10V control for more complex LED colour washing effects.
- Multiple load options including 600Watt, 1KW & 2.5KW, blind control relays and volt free relays.
- Soft start feature prevents nuisance tripping and extends lamp life.
- Not reliant on manufacturer's commissioning.
- Multi panel or all-in-one bespoke systems made to order for residential and commercial applications.

System Configuration

- Simple DIP switch settings allow installer to link multiple packs together to add extra circuits in a larger area i.e no laptop or end user software is required.
- Larger, multi-channel configurations possible by networking dimming/switched systems together. The Mercury® installer software gives access to the many features embedded in the system allowing configuration of larger, more complex applications.

Hamilton Smart Lighting Controls Pack

| Part No. | Remote Dimmer Packs |
|-----------------------|-----------------------------------------------------------------------|
| MDP4X600+3AR | Mercury 4 x 600W + 3A Relay Dimmer Pack |

| MDP4X600+3AR+E | Mercury 4 x 600W + 3A Relay Dimmer Pack with Built in Ethernet Bridge |
| MRP4X10A+3AR+E | Mercury 4 x 10A + 3A Relay, Relay Pack, with Built in Ethernet Bridge |

Multi-room Audio

Hamilton multi-room is a simple to operate multi-room music system that can have up to four music sources connected to the system which can be listened to in four rooms or zones around the home. The music sources can be controlled by a range of stylish control plates, all of which complement the Hamilton ranges of electrical wiring accessories. The system can also be controlled by WiFi using our downloadable app or an infra red remote control.

- Create the perfect mood by playing your favourite playlist throughout the entire house/property.
- A standard set up starts as a 4 zone 4 source multi room music system.
- Optional Bluetooth, connect ability using the Bluetooth module.
- Optional DAB Radio.
- Different rooms can play individual music sources or one source in all rooms.
- 20W + 20W speaker output per zone.
- RS232 serial port for integration with other control systems.
- IP network port for integration and control.

Hamilton Multi-Room Audio Pack

| Part No. | Remote Dimmer Packs |
|--------------|--------------------------------------------------------------------|
| MRA4 | Multi-room Audio Enclosure 4 Room - 4 Zone |
| MRA4D | Multi-room Audio Enclosure 4 Room - 4 Zone with Built in DAB radio |

Lighting Control and Multi-room Audio Controllers

The Hamilton Smart lighting & audio control systems are available with a range of stylish wall mounted controls, including capacitive touch glass plates that complement other wiring accessories in the Hamilton ranges. You can also control these systems with an infra-red remote control or with the Mercury App via an iOS device.

Bring the connected home to your customers.

Nest products help save energy, keep families safe and connect people to what's important. Together, they do even more to create a thoughtful home.

Nest Learning Thermostat

The Nest Learning Thermostat learns the temperature that you like when you're at home. It turns itself down when you're out to help save energy. And you can control it from your phone.*

Help your customers find peace of mind.

Nest Cam IQ indoor and outdoor

Nest Cam IQ indoor and outdoor have incredibly crisp, clear 1080p HD video and HD Talk and listen. They can identify when someone's in your home, alert you and zoom in to see who's there.

Nest Cam Indoor and Outdoor

Nest Cam Indoor and Outdoor look for motion and can listen for sound. If something's up, they can send an alert to a phone. And with a Nest Aware subscription, your customers will receive a special alert when the camera sees a person.

Nest Hello video doorbell

Nest Hello lets you know who's there, so you'll never miss a visitor or a parcel. And with 24/7 streaming, you can check in at any time.

Help your customers stay safe from smoke, carbon monoxide and annoying chirps.

Nest Protect smoke + CO alarm

There's never been a smoke and CO alarm quite like this. Nest Protect looks for fast-burning fires, smoldering fires and carbon monoxide. It also speaks up when there's a problem, can be silenced from the Nest app and can even send a message to your customer's phone in case they're not at home.

| Intelligent audio alerts | ● | ● | |

Your home in your hand.

With the free Nest app and Nest Cam, you can see what's happening at home, 24/7. Inside and out. And when your Nest Hello rings, answer the door and talk to visitors from anywhere.

Better together.

It all starts with a Nest product: a thermostat that learns, a smoke alarm that talks or a camera that lets your customers see their home from anywhere. Add a second Nest product – or a product that works with Nest – and they'll notice each other. Learn from one another. And help people save energy, be comfortable and stay safe. Effortlessly.

*Some features, including mobile notifications, remote control, video streaming and video recording, require a working Wi-Fi connection.

Not all products are available in all stores.

Connected Smart Living made easy by Megaman

SMART LIVING

It's as easy as iZB!

Working with ZigBee® technology, INGENIUM® ZB is a scalable smart lighting solution, which allows users to gain wireless control over all INGENIUM® ZB products for high-end applications. Allowing control of over 150 devices simultaneously, INGENIUM® ZB is perfect for anyone looking to add smart control to residential and commercial spaces.

The benefits of Zigbee® technology

- Low power consumption
- Secure
- Interoperable
- Reliable
- Scalable and extendable

Works with Amazon's Alexa too!

"Alexa, dim the living room to 60%"

A Smart Home at your Fingertips

With a simple and intuitive interface, the INGENIUM® ZB App allows you to automate your home or workplace by monitoring and scheduling all of your connected lighting and smart devices through your mobile device.

Control at your fingertips...

Wireless control via your smart phone or tablet

Scolmore's range of Click Smart intelligent wiring accessories aims to strip home automation right back to basics, offering a smart solution that has at its core, accessibility and simplicity for the end user. The Click Smart system makes it easy to adapt and upgrade your home to provide extra security, energy saving, comfort and control.

Code:
CSB040

Features of the Click Smart app...

Schedules

Create schedules for timed automatic control.

Scenes

Scenes bring together multiple receivers within a single control.

Multiple Users

Multiple users can control the application at any time.
